

**Marina del Rey 50<sup>th</sup> Birthday Banners  
Design Control Board Submission Letter  
November 13, 2014**

**BACKGROUND**

On September 17, 2014, the Department of Beaches and Harbors' (Department) Community and Marketing Services Division's (CMSD) request for the approval of the Marina del Rey 50<sup>th</sup> Birthday banner design was heard by your Board. Two banner designs, in two different background color options, were submitted for your consideration. Pending design approval, the banners (6' H x 3' W) were due to be installed on previously approved light poles along Admiralty Way (13 poles), Fiji Way (4 poles) and Via Marina (6 poles) and displayed throughout 2015.

With questions regarding the Department of Public Works' (DPW) Encroachment Permit guidelines for light pole banners in Marina del Rey, your Board requested that a representative from DPW attend the next scheduled Board meeting to address banner dimensions and installation height restrictions, in the hopes that they may be lifted to allow for larger and more visible banners. Based on this request, your Board did not vote or comment on the design options presented for the Marina del Rey 50<sup>th</sup> Birthday banners.

**MARINA DEL REY 50TH BANNER PROGRAM REQUESTS:**

With a representative from DPW planning to attend the upcoming meeting to address your Board and in an effort to promote the Marina's 50<sup>th</sup> birthday, CMSD respectfully resubmits our requests for the following:

1. Approval of the Marina del Rey 50<sup>th</sup> Birthday light pole banner design; and
2. Approval to display the Marina del Rey 50<sup>th</sup> Birthday banners on approved light poles until December 31, 2015.

**Marina del Rey 50<sup>th</sup> Birthday Light Pole Banners/Program Description:**

The Marina del Rey 50<sup>th</sup> Birthday light pole banner design comps are consistent with the official logo that will be used in the promotion of all 2015 events that celebrate the semicentennial of the largest man-made small craft harbor in the United States. Details for both design options are attached.

In order to have the banners manufactured and installed prior to the Marina del Rey Holiday Boat Parade, which takes place on Saturday, December 14, 2014, CMSD applied for a Department-issued Temporary Signage/Banner/Tent Permit to display the banners on select light poles over a 60-day period. Pending approval of the permit, the banners will be installed on the 23 center median roadway poles within the next few

weeks. The banners will be displayed alongside the Farmers' Market banners, which are on display until January 31, 2015, in off-set heights on light poles.

Based on your Board's ruling on the banner design, CMSD will ensure all recommendations, if any, are incorporated in the design and that new banners reflecting these changes are produced and installed accordingly.

The banners will serve as the premiere outdoor advertising medium for announcing the Marina's 50<sup>th</sup> to residents, visitors and passersby. CMSD hopes the banners will create a sense of excitement for the community's milestone birthday and anticipation for the celebratory programming that will take place in the Marina throughout 2015.

## **SUMMARY**

The Department appreciates the continued support from your Board for the Marina del Rey event banner program, which will intermittently and temporarily promote special events in the area. Not only do the banners promote community-based programming that helps to bring residents and the general public together, but they also help to add a sense of vibrancy and color to the community's landscape, which together benefits Marina del Rey.
